Teleflex Medical OEM Announces European Sales and Customer Service Strategic Realignment

Kenosha, WI, January 15th, 2007 - Teleflex Medical announces that its OEM strategic business unit, a preeminent global outsource provider focusing on medical devices and orthopedic surgical instruments, is expanding its European market presence through its Teleflex Medical Tuttlingen GmbH facility (formally known as K-Medic Europe).

As a result, Teleflex Medical OEM has relocated its orthopedic instrumentation customer service center to the Tuttlingen, Germany office and increased its sales manager representation for its customers throughout Europe. "I remain convinced that the best way to service our customers is to live and work in our customers' market," stated Doug Slomski, Director of Global Sales for Teleflex Medical OEM.

In addition, Teleflex Medical OEM's management has authorized the manufacture of Beere Medical products in Europe from an exclusive manufacturing partner in Germany. "We will have installed complete customer care support and engineering support for the product line, and will complete this transition process by the end of 2007. We are committed to our investment and will work with each customer to provide maximum value," Slomski added.

For more information on the products offered to the orthopedic industry through the Beere and K-Medic product lines, visit: www.teleflexmedialoem.com

About Teleflex Medical OEM

Teleflex Medical OEM is a preeminent global outsource provider that focuses on medical devices and orthopedic surgical instruments and comprises four industry-leading brands: Beere Medical[®], KMedic[®], Deknatel[®] and TFX OEM[™]. Teleflex Medical OEM provides dedicated engineering and technical services to help ensure the successful transition from concept through development, manufacturing, and product packaging. Teleflex Medical OEM has extensive expertise in the cardiovascular, orthopedic/spinal, urology, gynecology, and pain management markets.

About Teleflex Medical Incorporated

Teleflex Medical is a leading global supplier of disposable medical products, surgical instruments and medical devices. The division supports health providers along the continuum of care in three main areas:

- Devices for sleep therapy, respiratory care, anesthesia and urology
- Instruments, medical devices and specialty sutures used in surgery
- Design and manufacture of specialty products for medical device manufacturers

Teleflex Medical markets healthcare supplies under the HudsonRCI[®] and Rüschi[®] brand names and surgical instruments and medical devices under the Beere[®], Deknatel[®], KMedic[®], Pilling[®] and Weck[®] brands. Additional information on Teleflex Medical products is available at www.teleflexmedical.com.

Teleflex Incorporated (NYSE: TFX) is a diversified company that designs, manufactures and distributes quality engineered products and services for the aerospace, automotive, marine, industrial and medical markets worldwide. Headquartered in Limerick, Pa., with operations in 24 countries, Teleflex employs 20,000 people worldwide who focus on providing innovative solutions for customers. Additional information about Teleflex can be obtained from the company's website at www.teleflex.com.

Beere, KMedic, Pilling, Weck and TFX OEM are trademarks or registered trademarks of Teleflex Incorporated. Hudson RCI is a registered trademark of Teleflex Medical Incorporated.
